

Curriculum vitae

Yousheng Tao received a PhD in Chemistry in 2004 from Chiba University, Japan, and a PhD in Geological Science in 2006 from the Chinese Academy of Geological Science, China. He then worked at Chiba University as a postdoctoral and a JSPS Researcher. He moved to the Institute of Carbon Science and Technology, Shinshu University in 2008 as associate professor. He now is a professor in Haixi Institutes, Chinese Academy of Sciences, a guest professor in Sichuan University, China, and the Editor-in-Chief of *Recent Innovations in Chemical Engineering*. His research interest is focused on nanocarbons, mesoporous zeolites, nanosolutions and their applications in energy and environmental aspects.
